The Playing Field

Welcome Paul and Joanne, to Simpaticos, an analysis of your relationship, through the use of a unique tool, the Composite Chart. This is a type of chart that astrologers use to get an overview of a partnership. It is constructed by using the midpoints between each of your individual charts. The Composite Chart is a Blueprint that represents a symbolic meeting place of your shared mental, physical, emotional and spiritual chemistry.

Have you wondered why the two of you find it easier to agree on some topics and experience distance when trying to discuss others? This report will likely touch on some areas where you might need insight.

There are no perfect relationships. We can strive to make our interactions with others more productive and meaningful. The pages that follow will describe places of harmony in your relationship. It will also point to places of potential conflict. You will notice that some descriptions will appear to contradict each other. Astrology offers a lens through which to view a wide variety of ways to express ourselves in order to make better use of our vast resources.

Relationships are made more from the fabric of a verb, rather than that of a noun. They are in a continuous process of becoming. You will eventually have changing expectations of one another. Your individual search for growth and new direction is rewarding and yet can create tension. It is important to find ways to make room for your individual needs. Nothing truly stays the same. Perhaps this report will inspire the two of you to find ways to mentally stay on the same page. Communication is so vital in clearly relating to each other.

Romantic love is a powerful belief system in modern day society. Some people have even compared it to a religion. Our faith goes out to another person. Romance charges a relationship with more emotional intensity than any other type of partnership. Many of our hopes and dreams are invested in finding a soul mate.

We seek happiness in a lover. How can such a simple thing get so complicated? It's that each of us has our own definition of happiness.

This report could create new options. Relax. It is not intended to judge either of you. Pause if something makes you take a deep look at yourself or your partner. Each of us is really a student of life when it comes to relationships. Learning how to communicate and to truly hear the mind and heart of another person is a life long quest. Remember that you are not alone when it comes to understanding how to better handle your human relations.

Paul and Joanne, try to let your eyes scan the pages that follow with an open mind. Perhaps you will be stimulated into taking a refreshing look at one another!

Happy Navigating!

The Players: The 10 Planets

Part One: The Lead Roles

The Sun

The Sun is the center of our solar system. It generously shares its radiance with the other planets. In Astrology, the Sun is the heart of the chart. It points to ways that your relationship needs to confidently shine. Keep the fires of your Sun burning brightly and proudly together. Love will follow. Happiness will fill your minds, bodies and souls. The Sun stands for ego needs, will power and creative vitality.

Forget your own Sun signs for the moment, Paul and Joanne.

Your shared Sun sign could be different than your individual Sun signs. Remember that we are talking about your combined Sun. It is the fusion of your two hearts.

Sun in Aquarius

A Sign is a psychological process through which a planet operates. As a couple, being solarized through the sign Aquarius gives your relationship a spark of individuality and progressiveness. The keyword for Aquarius in traditional astrology is "I know." Each of you can surprise the other with new insights. Sudden change and spontaneous ideas awaken the creative energy of your relationship. A search for unique paths is a constant desire. Individual and shared visions for the future may be exhilarating. Communication is usually invigorating.

Peers may be unconventional. The groups associated with can border on the unusual. Each of you can be the catalyst to get a group to move into a new direction. A mutual respect for independent thinking goes far to deepen your connection.

Giving equal support to goals is endearing. Helping each other reach objectives without interfering with individual autonomy brings trust. Showing you care without giving unsolicited advice encourages intimacy.

Your life together is apt to be filled with experimentation and exciting experiences. The inventor and rebel in each of you stimulate lively discussions. There can be a dislike of routines. You might not care for strict schedules.

Excessive intellectual aloofness might make you feel distant. Hiding emotional insecurity behind a show of mental strength can drive a wedge between you. Coming out from behind fears brings a great closeness.

Eccentric natures can be entertaining to each other and to your friends. You both can enjoy surprises. People with individualistic outlooks are fun to be around.

Freedom must be balanced. It is important that neither of you be an extreme follower of the other. This relationship thrives on mutual independence. Freedom does not mean we can always get our own way. A "different just to be different" attitude or extreme

aloofness can cause tension.

Communication breakdowns must be fixed. Sometimes space will help bridge the gulf and restore a clear perspective. Each of you can arouse new perspectives, as well as a lot of nervous energy! Expressing your insights can help settle the differences.

Your creative vitality can guide you in the giving and receiving of support. Both of you need to feel you can fulfill your individual destinies. Enjoy being friends and lovers in this adventurous and sometimes unpredictable partnership. Your love for each other is electrified when you delight in the treasures you find as individuals and as a couple.

Sun in the Second House

Sound investment strategies can have lucrative results. Be generous in sharing your resources with one another as it keeps you in love. You tend to be proud of what you own.

Affection is something you look for in each other. It will feel odd when it is not there. You can enjoy romantic dinners and receiving flowers. Making each other feel special goes a long way to ensure happiness. The spark that brings you to fall in love is something you want to keep rekindling.

You both expect to have your opinions valued. There is a tendency to grow stubborn if you feel discounted.

You have a way of stabilizing each other. Did you feel very relaxed when first meeting each other? There is a reliable shoulder to lean on. People might perceive the two of you as possessing great poise in any kind of situation.

Entertaining others can be enjoyable. You could be known as excellent chefs. There is a flair for putting an extra touch of grace, beauty and spice into what you prepare. Your creativity expresses your sensuality.

The Moon

Countless song lyrics, poems and lofty dreams have been inspired through gazing at the Moon. The Moon's sign and house position represents the intimacy and feelings you share with each other. Establishing a sense of security and a home are other lunar sides of life. The Moon symbolizes the imagination you share from your inner landscapes.

Moon in Aquarius

With your relationship lunarized through the sign Aquarius, you share a fondness for unconventionality. There aren't too many things in this world that will shock either of you. Surprise is something you thrive on. There is an inventive quality that runs through your togetherness. People can experience electricity buzzing between you.

An innate sense of the future can stimulate you into exciting directions. The intimacy between you can provide the foundation of a wonderful friendship. Equality allows you to naturally deepen your mutual understanding.

Your mental alignments lead to experimentation. Your partnership could easily feature a trend- setting tone. Friends, peers or loved ones could be motivated to new inventive thinking. Your relationship probably attracts unusual people and situations.

The home could have a unique beat to it! Visitors with progressive insights may frequent it. Groups may enjoy meeting at your house. There is a likelihood of having numerous types of the newest communication technologies at your disposal. Staying in touch with the world through E-mail is not hard to predict. You each need to feel completely free to be yourselves around the house.

You might display a great capacity to adjust to each other's moods. A need for closeness and distance is indicated. Doesn't this sound like a difficult challenge? You will need to talk this dimension of your relationship through carefully. You can balance these two tendencies in your everyday relating with one another.

Aloofness! It might cause a deep wrinkle in your caring for one another. Find a happy medium between your emotional and mental sides. Communicate to each other's heart as much as the mind. Support each other's future goals and you just might have a friend forever!

Let your imaginations guide you to walk with a spirit of autonomy, and yet find areas where the farthest reaches of your worlds can meet. Embracing the closeness found in the present may be wiser than pinning all of your hopes for the promise of the future--though it's hard not to look ahead!

Moon in the Third House

Your minds often see eye-to-eye on major issues, though they can travel from different directions. Perceptions are often flavored by your emotions. There can be instant intuitive awareness of situations due to the chemistry of your energies.

A shared curiosity to learn is indicated. Communication is highlighted. You might even teach a subject of mutual interest together. Your ability to inspire others to think about options is impressive. There could be endless new insights that benefit one another. There is a restlessness to be mentally active.

Your friends can enjoy the lively atmosphere of your partnership. People can enjoy exchanging ideas with the two of you. Individuals from diverse backgrounds can become part of your social circles.

Your home is never a dull place. Reading and staying in touch with current events is never far from your minds. You can receive visitors or telephone calls at any time of day. It is probably wise to have more than one phone line computer and television!

The onset of mood swings could disrupt communication. Emotional upheavals can distort your perceptions of each other. Be sure to separate feelings from facts. Listening helps keep emotional reactions balanced.

Let your intuition guide you to listen to each other carefully. Honoring individual ways of establishing mental coolness can be the hidden ally. You can be intrigued with the diverse paths you will walk through life together.

The Ascendant

We are taking a short intermission from the planets to introduce you to an additional key part of your relationship. The Ascendant or Rising Sign is the sign that starts the 1st house of the chart. The Ascendant is one of the twelve signs with a special role serving as an ambassador. It acts as a persona or mask for an individual or a relationship. The Ascendant is the personality through which we interact with the world.

The Ascendant is the way we appear to others. It is their first impressions of us. You meet someone and he or she seems to be confident, shy, talkative, cheerful, etc. The same can be said for a couple. The two people might seem theatrical, dreamy, or businesslike.

Ascendant in Sagittarius

People see the two of you as fun-loving and adventurous types. You are easy going and don't care too much for stressful activities. Buy you travel tickets and it probably feels like you are in heaven. Exchanging ideas with others is stimulating. You tend to energize others making your company pleasurable. Self-confidence is personified through the way you carry yourselves. The two of you are convincing when believing in what you are talking about. Discipline might not always be readily available. You both can be in the habit of seeking new horizons that offer expansive growth. Your positive attitudes make good luck a reality. Others may call upon the advisor or teacher in you.

The Part of Fortune

Your Sun, Moon and Ascendant can be combined or blended into a cosmic alchemy, known as the Part of Fortune. This is not a planet, but rather a reference point in the chart. The Arabian astrologers of the Middle Ages are given credit for its discovery. The Part of Fortune is said to show where we can expect to find good fortune and even luck. Do we really need to take a look at something from the long ago past, if it will serve as nothing more than a relic to hang on the wall? A translation of this ancient symbol into modern terms makes this symbol worth investigating. Why? Because it can give clues to special paths that lead to harmony and a spirit of feeling united.

Think of the Part of Fortune as the potential corridor leading to Opportunity. It is a way to read the pulse rate of the partnership, indicating ways to reach a shared sense of fulfillment.

Part of Fortune in Capricorn

Rising to positions of power, or creating circumstances that give you a sense of being in control, allows you to feel more at ease. You can climb to high places together. The commitment you establish can be deep, and appear invincible. Career aspirations are probably important to your happiness. A willingness to be patient to realize the full completion of a strategy is within the framework of your relationship. You rejoice in each milestone. One or both of you cherish certain traditions. You both will be called upon to

lead. It is here that your destiny can be smiled upon by good fortune.

Part of Fortune in the First House

Courageous moves ahead stimulate the universe to send you good luck. Learn to assess situations in advance to make sure this works even more to your advantage. Your identities can blossom through the endeavors you choose to include in your lives. Make a statement about yourselves by exhibiting decisiveness. Opportunities will present themselves when the two of you are willing to act on your convictions. Patience is a tool worth developing. Your sincerity and confidence move people. Your energy together can move mountains.

Part Two: The Supporting Cast

Mercury

It shows how you interpret what the other is saying. Mercury is connected to Perception. Astrologers consider Mercury the ruler of the conscious mind.

Mercury in Capricorn

Your mental energies influence you to find meaningful ambition together. You have perceptions featuring a reality-based tone. A commitment to a clear definition of your relationship is needed. It's not as much fun without it.

You communicate in a business-like way. The two of you know how to negotiate with each other. Respect each other's ideas, and you will stay close. Rigid ways of talking will not warm your hearts. You are a strong partnership when channeling your competitive force at creative strategies. You are take charge people.

Mental strength can lead the two of you through obstacles. You do better when learning to play as hard as you work. You are serious when it comes to finishing projects you begin.

Business smarts are everywhere present in your partnership. The two of you can show great focus when working together. You are adept in managing your time. A disciplined concentration can be displayed. There is a shrewdness in making sound business decisions. Your career pursuits can take you far. You both like to perform at the best of your ability and are sensitive about having your work criticized--aren't you?

Changing directions in mid stream is not a sin. It might even keep your minds fresh and alert. A belief in certain traditions may be important to you. History could be an interest. You like ideas that are practical and possible to put into practice.

Work on bringing out each other's strengths. Your shared insights can be a bridge that leads to reaching new heights. You can build anything together if you are willing to let each other show their true ability.

Exchanging creative ideas to improve your financial situation is a regular occurrence. Ownership and investments are of mutual concern and have a bonding effect on your companionship. The two of you like to feel you have a sober approach to what is

possible to accomplish. You both can enjoy having a place to retreat to that is calming.

You like to talk in terms of tangible concepts. There is a simplicity in your communicating that makes the two of you easy to understand. When you put your ideas on the table together, you are able to brainstorm more resourceful ways of getting a job done. There is likely to be occasions when each of you might stubbornly defend an idea. The friction may be unsettling. Be sure to talk out differences. You can find a win-win strategy.

Your partnership may excel at business. Your timing in putting your money to good use appears to be excellent. You appreciate people that are self-reliant and can finish what they start. It is probable that you look for this in one another. Each of you is going to have certain cherished items that you want just for your own pleasure.

Too many mundane worries may find you needing to get away from it all. Some R&R gives your mental energies a much deserved vacation. Relaxation can strengthen and clarify your reasoning powers. Your values could be a key to your establishing closeness.

Venus

Without Venus, life would be lonely and meaningless for all of us. The goddess of love guides our Social Awareness and search for Aesthetic Beauty. The Venus sign and house positions most directly point to your search for a sense of balance, peace, comfort, love and mutual admiration.

Venus in Aquarius

Your relationship is a Symbol of Freedom. The social instincts of your relationship point you in exciting directions. You are curious to meet people with individualistic tastes. Your life together is full of surprises--you probably like it that way! Unconventional people are attracted to you. Certain groups can benefit from your unique value system.

Friendship may have been the first step in getting to know each other. Equality is a key theme running through your togetherness. Support each other's goals and love is everywhere present. Others may perceive you both as coolly rational. You may keep people at an arm's distance until you really feel comfortable with their company.

There may be no real pattern to what you buy due to a desire to own the unusual. Your possessions can denote your unique interests. Life is more peaceful together when each of you feels free to spend monies as needed. Separate bank accounts are wise. You can stimulate each other to buy on a whim. Immediate gratification can possibly causes you a bit of anxiety.

Your romantic ideas may be unconventional. Tradition is a concept to rebel against. The two of you like to create an original script. It is stimulating to sidestep the example of someone else.

What might you need to balance? Regulating the closeness and distance takes practice. You both likely need to exert your independence. There could be times this causes an argument. Integrating your personal needs into your relationship will take

Careful negotiation. Becoming too self-absorbed in your own goals may irritate your partner. Pay attention to the direction you want to pursue as a couple, and you will remain close.

Venus in the Second House

You are a couple that can exhibit a smooth expression of social grace. You share a suave way of carrying yourselves when dealing with others. Stability is an ingredient that can be maintained easily if you stay clear about your purpose for being together. There is a strong sensual connection indicated. Showing affection brings you closer.

Finances and possessions are areas that require your greatest honesty with each other. You both need to feel secure in these areas. Sharing money generously with one another tightens your bond. There is much you can accumulate together. You may be committed to obtaining greater wealth. "Saving for a rainy day" might be a concern. Your business instincts are clear. They can lead the two of you to try your hand in operating your own business. Common sense in buying and selling merchandise is favored in your partnership.

Your values are probably a source of strength. There is reassurance in knowing you want the same things from life. There can be a love of nature and owning land. You are two very resourceful people. It doesn't take you long to figure out the most economical way of getting a job done. Creature comforts are probably a part of life you appreciate. If your schedules get real busy, remember to take some leisure time. It keeps you both happier.

Your energies might slow down when together. Why? You have a calming effect on each other's psyche. There might be times when you need to get your creative adrenaline pumped together to complete a project. Generally speaking, your follow through is dependable. The tendency to possess one another need not arise. Give each other the right to follow in the footsteps that seem to lead to personal growth. If you do this, love is not hard to feel for your partner.

Mars

The ancients considered Mars the god of war. The warrior planet can translate into heated exchanges with each other. Mars arouses Passion in the form of sex, anger or a desire to forge ahead as a swash buckling couple. Mars is still the ruler of combat. It points to the primal competitive instincts embedded deep within each of us. In modern terms, this fiery red planet's sign and house placement are associated with assertion and acting on impulse.

Mars in Pisces

Your emotions and ideals fuel the warrior in you. Together you make two romantics willing to fight for your shared dreams. The two of you can show incredible faith in each other. There could be a drive to be successful in the arts. You stimulate creative courage to the depths of each other's souls. A willingness to make sacrifices for each other can make you feel close. You might find it hard to be openly angry with your partner. Moodiness is more likely than a direct confrontation. There is a sensitivity in not wanting

to hurt each other's feelings. Denial or avoiding conflict might not be in your best interests. It will only delay working on the real issues.

You may have a common interest in dance, movies and other forms of entertainment. Your hobbies and passionate interests probably amuse your friends. People can be moved by the inspiration you excite in them.

There will be times when you could find working together difficult. Getting a project started is the biggest challenge. It might be that your high expectations or impulse to do something perfectly interferes with getting in first gear. You can find that taking the first step will propel you to the finish line.

Your relationship is energized when the two of you escape to places that seem mysterious or absolutely beautiful. When your minds are intoxicated with transcendental experiences you love life together. When you believe in each other, life seems more magical.

Mars in the Third House

You accelerate each other's thought processes. There is a healthy appetite for communication. You seem almost invincible when it comes to convincing others to believe in your ideas. Exercise tact when pushing your desires in each other's faces. The thing that may get you the most angry is when you feel your partner is not listening. You likely know just what to say to get your partner's attention. If you put your foot in your mouth on a regular basis, you can learn, with practice, how to be more discreet.

Your perceptions hop higher than a kangaroo. You both like to change directions quickly. Give one another a signal before turning if you want to be followed. Excitement is probably preferred over the usual routines. Surprise pumps you with refreshing mental vigor.

Forgetting to follow through on promises can be irritating. Anger is not always easy to show. The nervous anxiety it causes makes you both uncomfortable. Getting your hostility out in some instances might make communication smoother in the long run. Neither of you likes to hold grudges anyway. You read each other's minds like an open book. Your eyes and facial expressions are a dead giveaway.

The two of you get motivated when pursuing new learning and greater options. There is a need for enthusiasm about your endeavors. When your spirits are on the same wavelength, life seems like a huge playground where your hearts have unlimited access to sing their potential.

Jupiter

The largest planet in the sky is Jupiter. This happy-go-lucky cosmic giant is more than twice the size of all the other planets put together. Jupiter spins on its axis with great enthusiasm, doing this faster than any other planet. Jupiter's sign and house denote themes related to learning, optimism, travel, philosophical beliefs, luck and generosity. Inspiration that flows between two people can be traced to our good-natured friend in the sky.

Jupiter in Pisces

You seek inspiration through the stuff that weaves dreams. There is a tremendous vision of hope and faith that you bring to one another. Go slow. Your intuition is apt to be far out in front of your reality. Be patient in creating a relationship together that represents each of you. Your love for each other might have felt like it was already there. It's almost as though everyday life needs to catch up with you both. Travel to exotic places keeps you close in mind, body and spirit.

Your principles and ideals are merged. Aesthetic talent is rich in your companionship. Performing for others is rewarding. People forget about their troubles when in your presence.

It may get confusing at times in being able to know where your partner's world starts and your own begins. On the one hand, this shows a great unity. On the other, your individual identities may get water logged. Let each other fulfill their personal needs and all goes well.

Your devotional energies are strong. Choose your causes wisely. You can care greatly for the welfare of one another. Helping each other find the roads to true fulfillment is a heartfelt urge. You can display a shared passion to want to educate others.

A sense of happiness and expansive growth occurs through following your innermost impulses. Life may seem like a magical mystery tour in your partner's presence. Walk with one of your eyes looking at reality, while the other eagerly searches for uplifting experiences that satisfy your imagination.

Jupiter in the Third House

An eagerness to move in multiple directions. Does this sound like the two of you? New ideas are constantly going through your minds. You influence your partner to think in terms of greater possibilities. Options are forever in front of your eyes. Worrying about yesterday is probably not much of a problem. The two of you can quickly reinvent a new vision for your future to better match your latest insights. Expanding your mental horizons is a challenge you likely take personally. You are a very convincing couple when it comes to promoting your concepts. You can talk people into getting interested in your beliefs. Even sales is a possible vehicle for your communication talents. Though you must truly believe in what you are offering for others to be moved to buy.

You don't mind talking about morals or justice. Being avid readers and keeping up with current events gives you plenty of ammunition in which to discuss most subjects. Watch the bragging. You might find yourselves exaggerating just how good you both are at doing something. Arguing with each other to prove you are right will produce no winner. Conversation goes better between you when you allow for differing perspectives. You can find plenty of shared philosophic territory to explore together.

You are naturally optimistic. It is your mental self-assuredness that creates new opportunities. People warm up to your genuine interest in them.

Saturn

Astronomers say that if Saturn fell from the sky it is light enough to float on an ocean. Some people dread hearing about where Saturn is in their chart more than they do going to the dentist! The fortune tellers of old always painted this planet with "heavy" interpretations. They presented this planet as being a god of doom and gloom. In modern astrology, this motif denotes endurance and ambition. In mythology, Saturn was Chronos, the god of time, reflecting the wisdom that can be learned from past experiences. You could say Saturn is a "Cosmic Chiropractor", showing adjustments needing to be made along life's way. There can be frustration in repeating the same mistakes. Saturn's sign and house themes are associated with Commitment and Reality-Testing. The two of you may find clues here about how you define your relationship roles. Career drive is a Saturn hallmark. Saturn shadows are fear, rigidity and a need to be compulsively controlling. There is no longevity without partners dealing with the symbolism of this particular celestial wanderer. With a lot of practice and patience the two of you can get good in making this side of your relationship flow--honest! Saturn can become more a god of Success!

Saturn in Sagittarius

You are a couple that must stay true to your idealism. It is hard for you to commit to anything that isn't fun. People are moved by the steadfastness you show in sticking to your principles. You may even seem a little old-fashioned this way. When you decide to act on a plan it can be put into operation swiftly. There is a chance you will lose interest in ideas that don't yield quick results.

Staying focused will be difficult at times for the two of you. A tendency is to be very expansive. You dislike having your options so clearly defined that there is no breathing room. Your style is cramped by super planning types of individuals. You are a playful couple. Even your serious ambitions have a dose of humor lining them.

You can display a pragmatic philosophy about your most heartfelt issues. It is senseless to argue with each other. Your partner can probably match you word for word, and even sarcasm for sarcasm. You both want many of the same things. It's finding the smoothest routes to getting there that will take your patience and wisdom.

You can encourage each other to leap over your fears into new challenges. It is your sincerity and generosity that often warms each other's hearts. You won't have all of the answers your partner needs. But you can be a voice of support and insight that helps light the way.

Saturn in the Twelfth House

You both can be very dedicated to your causes and beliefs. An interest in health, psychology, metaphysics and the arts might be shown. There is a deep soul-like connection between you. Dealing with everyday reality, such as paying the bills, will test your patience. Clarifying your expectations of each other will go a long way in ensuring stability. You can touch the romantic in one another very passionately. Touching the sentimental side of one another can occur often.

You need to have definite boundaries in give-and-take. This needs to be fairly equal

in your relationship. Be careful in the sacrifices you ask of each other. A reality check in what you ask of one another is smart. Your generosity could be abused by people taking advantage of you.

Guilt is a potential fog that interferes with your perceptions. Talk direct. If you learn how to communicate with each other, this can be a very successful liaison. You expose the emotional needs in one another. Neither of you is perfect. Be sensible in what you ask of each other. You can be part of a shared mission that brings a special joy. It is important to you that you have a special shared purpose for being together.

Uranus

Try to visualize a maverick planet orbiting on its side, whereas the other planets sit straight up and down. Uranus! This planet was discovered in the eighteenth century, sandwiched in between the American and French Revolutions. Is it any great wonder that this planet's sign and house occupations show our individuality and innovative ideas? Experimentation. Inventiveness. These are two more themes of this exciting and trend-setting entity. What is the down side to this rebel? A tendency in exhibiting a sarcastic tongue in your everyday communication. Launching sudden irresponsible actions will not make you feel like friends. Uranus can be the source of enjoying the refreshing insights you bring to your partnership. Treat each other as equals and you are likely responding to a positive tendency embedded in this planet's symbolism.

Uranus in Pisces

Pluto's sign and house point to our drives for power, passion and financial gain. A desire to get to know each other on the deepest of levels can be a Pluto theme. We must let go of a part of ourselves to be in a relationship. This scares some people and seems like a fair deal to others. What we cannot face as individuals sometimes will be brought to the surface in our interactions with a partner. Pluto's shadows center around jealousy and possessiveness. This planet teaches us that letting go and trusting one another are rewarding paths. Facing the tests of Pluto together is the breakfast of champions.

Just as the Ascendant was described as a sign serving a special purpose, there is a sign referred to as the Midheaven, with a special mission of its own. This is the sign at the beginning of the 10th house of a chart. A palm reader can interpret the career line embedded in your hand. Think of the Midheaven or 10th house sign as a type of career line in your chart. How you two conduct business in the world and your work interests are shown here.

Part Three: Planetary Aspects

It's time now to mention another technical side of your report. (If you don't like technical explanations, skip right to the Aspect Interpretations). You have already been introduced to the ten planets. Certain planetary pairs in your chart have a special relationship to one another due to particular angular distances separating them, known as aspects. You could almost say the two planets in an aspect travel and interact together along the same circuit. The following aspect interpretations or descriptions will be listed under five types. Two are known as the soft aspects: the sextile (60 degrees) and trine (120 degrees). These two aspects generally point to more gentle themes found in your relationship. They indicate a lower voltage of electricity and produce less friction. The planets involved in a trine or sextile are more likely to be areas where you flow together without much effort.

The more hard or intense aspects are the conjunction (0 degrees), square (90 degrees) and opposition (180 degrees). They require our understanding and will point to key ways the two of you must communicate and negotiate. Planets that are part of an intense aspect will show how you energize one another. These higher voltage aspects don't mean you want to avoid them, but more so to develop a true understanding of how to use this energy constructively. "Soft" does not mean good and "intense" does not imply bad. It is often the more intense aspects that deepen the bond of a partnership. The interpretation of any planetary aspect depends greatly on the symbolism of the two planets forming an aspect.

It might be helpful to keep some key words in mind for the aspects. The sextile is a promise of Excitement and Eagerness. The planets in this aspect give clues how your energies support one another. The trine is a special Harmony shown by two planets. There is often positive regard for one another that comes spontaneously. We expect good things to be delivered in the trine.

The conjunction is where two planets are joined at the hip. There is a Fusion or powerful blending of these two energies. The square can reveal where you will encounter Friction in your relationship. Pay special attention to these aspects, as they are opportunities for growth as much as discord. The opposition requires a Balancing act. It is similar to a seesaw. Each of you may find yourselves taking turns in acting out one planet or the other.

It might be helpful to refer to Parts One and Two to refresh your memory about the meaning of the Planets, Ascendant and Midheaven, as you read the aspects that follow. Remember that it is usually the more intense aspects that stretch us the most. The more positively you use these challenging planetary combinations the greater will be your understanding of each other.

Note that a planet might be involved in several different aspects. In other words, the planet is interfacing its energies with numerous other planets (or even with the Ascendant or Midheaven). A "heavily aspected planet" plays a key role in your relating to each other.

Maybe it was a charismatic smile, the way you could talk, a physical attraction, or a shared sense of values. There is a multitude of possibilities you could name. The Nodes of the Moon are not planets. They are a celestial polarity offering clues to your connection on the soul level. Think of it as your own "psychic friends network." If this sounds too mystical or corny, just think of the Nodes as a shared frequency level in your partnership. It doesn't mean you get psychic flashes about each other. Much of this link between your minds is probably on a subconscious level. The Nodes usually play an active part in our closest relationships. The longer we are in a relationship with a particular person, the more these two energies come into our conscious awareness.
