

10 Tips for Choosing Your Wedding Date

The Essentials:

- NO VENUS Rx!
- AVOID the Sun approaching a square to Saturn
- INCLUDE a good approaching aspect from the Moon to the Sun
- ENSURE that the Moon's final aspect in its sign is a good one!
- MAKE VENUS HAPPY:
 - ♥ INCLUDE a good aspect from Venus to another planet, or to Venus from the Moon or Mercury.
 - ♥ AVOID Venus in Aries, Virgo, or Scorpio if possible unless very well-aspected.
 - ♥ AVOID Venus conjunct, square, or opposed Saturn, Uranus, Neptune, or Pluto (and square or opposition to Mars).

Still Pretty Darned Important:

- VOID Mars, Saturn, Uranus, Neptune, or Pluto in the 7th house.
- AVOID the Sun or Moon in the 6th or 12th houses.
- INCLUDE a good aspect between the planets that rule the signs on the 1st and 12th houses (or at least avoid a really bad one!)

Nice if you can get them, but not deal-breakers if you can't:

- AVOID Mercury Rx
- AVOID Moon in Aries, Scorpio, or Capricorn unless very well aspected.
